Hi all,

OCFO was requested by the Hill and OMB to develop a resource crosswalk for the Agency's resources devoted to PFAS/PFOA and to update a fact sheet on the Agency's activities. We worked extensively with OPPT to develop the attached materials and they have been cleared at the OD level. The resource breakout is provided at a more granular level so that you can more easily see what the costs are attributed to, but we will roll this up at the Program Project level with a list of all of the activities when submitting to OCFO.

Can you please review the breakout and fact sheet and let us know if this is okay to send forward to OCFO?

Thank you,  
Greg
